

JUMBO BAGS

New
EXPANDED
CAPABILITY

THE BASICS

Popular in the shipping, transport, and airline industries, Jumbo Bags serve as a protective barrier, shielding contents inside. Manufactured with bottom seal construction, all Jumbo Bags come on rolls.

Log on to RDHpackaging.com and select Jumbo Bags for pricing, lead times and minimums in just seconds.

HOW ARE JUMBO BAGS USED?

Jumbo Bags serve as a barrier – shielding the contents inside from dirt, debris, or the effects of inclement weather. These are utilized to enclose product or keep it from moving.

- ▶ In semi-trucks & containers (serving the same purpose as a gaylord liner)
- ▶ As cargo covers
- ▶ As a pallet cover (for lightweight high stacked pallets)
- ▶ To enclose a piece of equipment
- ▶ In airports to cover luggage carts and racks
